

Joshua Hollander: University of Wisconsin – Madison Undergraduate Student

(920) 597-0996 | jdhollander@wisc.edu | Madison WI, 53715 | joshhollander.com

Objective

To obtain a full-time or part-time internship the summer of 2020 relating to Computer Programming

Experience

Post-Production Assistant - UW Extension Publications Department

July 2018 - Present

- Manage both digital and physical file collections/databases of previously created publications (approx. 1,500+) alongside related forms associated with author contact histories and edit histories
- Assist the production process of publications by doing any necessary filing for the publication and creating a page for the publication where it can be purchased by the public at <https://learningstore.extension.wisc.edu/>
- Utilize Adobe CC to create and edit graphics for online advertisements for products that are then posted onto multiple social media platforms
- Work with the Publishing Unit's warehouse to coordinate the correct formatting, printing, and cutting of document proofs and final versions
- Digitize forms relating to the creation/editing/purchasing of older publications (circa early 1980s - present)
- Assist with the physical and digital transition of the Publishing Unit, as it is now under the ownership of UW-Madison (e.g. switching Ecommerce platforms and moving equipment to a new office environment)

Ecommerce Website Migration Extension Internship - UW Extension Publications Department

May 2019 - August 2019

- Assisted with the migration of 1,500+ PDF publication files, each of which must align with its product page counterpart
- Used HTML and CSS to assist with badging, branding, and visual design of individual product pages to align the Learning Store's user interface with UW–Madison's web guidelines and update catalog entries with legacy formatting
- Scouted the Learning Store catalog and publication pages for consistency in HTML formatting
- Ensured 301 redirects for URLs were functioning correctly
- Used Adobe CC to craft graphics and other marketing pieces for use on the Learning Store's Shopify homepage and social media pages to promote new and revised publications
- Worked closely with the Publishing Unit's off-site warehouse to coordinate, modify, and adjust Shopify email notifications for order fulfillment
- Created a custom invoicing sheet utilizing HTML, CSS, and Liquid (custom Shopify template platform)

Production Assistant - Stephen Edward Graphics

August 2016 – August 2017

- Assisted production of vinyl decal creation through Adobe Illustrator on OSX, alongside cutting, peeling, applying transfer tape, and trimming decals
- Worked with decals that required immense attention to detail
- Assisted with the packaging and shipment of online orders
- Demonstrated and improved time management skills

Education

High School Diploma, Cirrus High School, Rosendale WI – 3.8 GPA

2013-2017

Bachelor of Science, Computer Science Degree + Mathematics Certificate,
University of Wisconsin – Madison – 2.8 GPA

Anticipated Grad. in 2021

Technical Skills

Languages: Java, C#, XAML, WPF (alongside the MVVM pattern), HTML5/CSS, JavaScript

Operating Systems: Windows, OSX

Have worked with web technologies such as Bootstrap 4 and Liquid

Comfortable using GitHub, Git, and Azure DevOps

Experience with Ecommerce sites such as Shopify and Able Commerce

Experience with Office 365 products

Experience with Adobe CC products (specifically Photoshop, minor experience in InDesign, Illustrator, and Premiere)

Relevant Experience

- Currently developing a game-library manager with C# and WPF that allows users to search for games utilizing GiantBomb's public API and add them to a library that the user can manipulate with different settings (I plan to make a web-based version in the future alongside the addition of Steam and PSN account integration)
- Self-taught C#, currently becoming more familiar with HTML5 and CSS by building my own website
- Have been programming since the age of 15, starting in High School with a Visual Basics class
